

CS 490/491L Progress Report #2

Instructions: Each team member should enter their activities performed for the capstone project in the last two weeks, as well as their expected activities for the next two weeks, along with anything holding them up on completing their activities.

These should be discussed by the team and their advisor(s) during the weekly/biweekly meetings, and the advisor(s) should sign up and date the sheet indicating a correct assessment of the team's progress.

Students need to upload a signed and scanned version to Canvas. Progress reports uploaded to Canvas without a signature and score for progress will receive a 0 for progress.

Team/Project Name: MAAKDE

Team Member #1: Kennedy Johnson

What I did since my last progress report:

Since the last progress report, not much has been accomplished by the team. However, we have discussed creating meeting times for our team to continue more substantial progress. We have also noted that we will be using Flask and hoping to connect the backend/frontend so we will be able to start testing.

Anything holding me up on my last progress report's expected activities:

For me personally, I have finally been able to finalize my school scheduling so I will have a more solidified idea of when I will be able to work on the project. However, by the next progress report a substantial amount of progress should be made.

What I plan to do before the next progress report:

By the end of next week, I hope to have the team on a consistent schedule so that we are able to have weekly meetings and continue our work on the project. I also hope to meet with the front end team to discuss the progress of the Front end page.

Team Member #2: Andres Macias**What I did since my last progress report:**

Revisited the front-end and created a list of possible overall improvements that could be done in the future. Also talked with both teams and discussed when we could meet next to work on the project together and discuss any concerns.

Anything holding me up on my last progress report's expected activities:

N/A

What I plan to do before the next progress report:

Hopefully decide on which of those improvements for the front-end should be put into actuality and implement them. Also to schedule more meetings with the team to discuss and work further on the project.

Team Member #3: Aaron Gian Madrid**What I did since my last progress report:**

Attempting to reformat and clean up the FE code. Trying to see if I can make the FE more appealing with new features that I've learned during the winter break. Went ahead and also assist Deni in looking into Flask to ensure the connection between FE and BE. Currently the team is also finalizing scheduling blocks for the team to work synchronously and really work together with our remaining times together.

Anything holding me up on my last progress report's expected activities:

Not really, I suppose we're just getting the hang of what schedule works best for us to meet but, aside from that nothing too dire.

What I plan to do before the next progress report:

Continue to revamp what our FE looks like and how it feels in terms of usability to the users. Continue to work on Flask connectivity and streamline the BE to the FE functionalities of the website.

Team Member #4: Matthew Kim

What I did since my last progress report:

Researching technologies and working to meet with team to work on the project

Anything holding me up on my last progress report's expected activities:

N/A

What I plan to do before the next progress report:

Meet up with the team to set up a schedule to work on the project

Team Member #5: Erik Vardumyan

What I did since my last progress report:

Researched how to set up and connect the database for our project. However nothing much as the team and I trying to find the best time that works for us

Anything holding me up on my last progress report's expected activities: By the end of this week we should have a proper schedule with the team to start properly working on the project

What I plan to do before the next progress report: start to work on the project to get progress down in strides

Team Member #6: Deni Cabaravdic

What I did since my last progress report:

Working on Flask connection with Javascript to keep our Python connected to our Front end

Anything holding me up on my last progress report's expected activities:

N/A

What I plan to do before the next progress report:

I plan to figure out the Flask and Front End Situation in order to show the group the connection between both.

Date: _____

Team Progress (0 -- 3): _____

0 -- no progress has been made by the team

1 -- insufficient progress has been made for the team to complete their capstone

2 -- sufficient progress has been made for the team to complete their capstone

3 -- excellent progress has been made by the team

Report Quality (0 -- 3): _____

0 -- missing or empty report

1 -- report briefly written with incomplete sentences, lacking descriptions of work

2 -- well written report with sufficient description of work performed since last progress report

3 -- excellently written report with detailed description of each team members progress
